Khaki

White

Light Grey

Black

Once you've chosen the Harbour Side Chair shell style that will be cradling and supporting your body, you can now also choose a clover-shaped swivel base so you can spin around as needed – and roll around as wanted. The base is available with either swivel, swivel w/return or swivel w/casters in three finishes – polished aluminum or powder coated aluminum in black or light grey. The Harbour Swivel Side Chair is available with textile and leather upholstery or with a bare shell. MENU's upholstered chairs are priced in three or four different categories, within textile or leather. Prices vary depending on the textile or leather you select. MENU offers various Harbour Swivel Side Chair variants available for expedited delivery.

Both the Harbour Side Chair and the bar and counter bases are available with the ergonomic shells of your choice, whether that's upholstered in textile, leather, or not at all. The bare shell is available in six colors, while the textile and leather options come in a range of colors – and can be customized. The swivel base is available in black and light grey powder coated steel or polished aluminum.

## About the Designer

Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specialise in residential architecture, commercial interiors, industrial design, photography and art direction. Today, the group regularly collaborates with MENU, helping to drive the evolution of the brand and its product offerings.

Norm Architects' name reflects the group's emphasis on the importance of drawing inspiration from norms and traditions within architecture and design – particularly the Scandinavian design principles of timeless aesthetics and natural materials, and the modernist values of restraint and refinement. Guided by these principles, Norm Architects produce design that unites good materials and craftsmanship, while embodying beauty, traditions, history and, most importantly, timeless simplicity, where there is nothing more to add or take away.
