The magazines we buy and the books we read tell the world about our taste. Let yours speak volumes. The sleek, sharply designed Monuments Magazine Holder puts our reading habits and intellectual curiosities on display as artwork. Its plinth-like base of two identical blocks of marble imbues the holder with a monumental, architectural feel. The project aims to elevate the magazine holder – a piece of furniture that rarely receives the aesthetic attention it deserves.

## About the Designer

DUBOKK is a Copenhagen-based creative studio, who design furniture, objects and everything in between. Their educational background has inspired a fundamental understanding and a natural curiosity for how objects interact with humans on both a practical and emotional level. For the duo, good design must appeal to the simplest of desires and be in tune with the perception of beauty, aesthetics and functionality. DUBOKK strive to create meaningful objects that will influence homes and inspire minds.
