The Scandinavian simplicity and purity of New Norm Dinnerware has won hearts all over the world. A Menu bestseller, the series has a uniquely Nordic feel. Each new addition to the family is tested in Høst, a leading Copenhagen restaurant. And we don't just care about aesthetics. All designs are colour-glazed and burned twice at 1400 degrees for maximum strength. The production takes place in a state of the art European factory, specialising in porcelain for restaurants and hotels. This gives your plates and bowls exceptional durability.

About the Designer

A Scandinavian company through and through, Norm Architects are celebrated for their clean, minimalistic designs. Its founders Kasper Rønn and Jonas Bjerre-Poulsen argue that minimalism is nothing new: "It has been the norm in many cultures all over the globe since the beginning of civilization. People have strived for material poverty as a way to inner luxury. Reduction and perfection have been the main goal for both craftsmen and inventors - because avoiding the irrelevant meant emphasising the important."

The pursuit of purity, simplicity and timelessness is at the heart of everything undertaken by Norm.
