In the spirit of Scandinavian simplicity, the two Danes behind NORM, Jonas Bjerre-Poulsen and Kasper Rønn, always strive to cut to the bone. To find the simplest possible solution without forgetting the beauty of the shape or the details – all in order to reach a point where nothing added nor subtracted will make the product better.

In our opinion, this is what set NORM aside from other talented designers. And when we look at Norm Floor Mirror, we think they stopped at the exact right point. A beautiful piece of design with simple aesthetics, powerful looks and fine details. Designed to lean against the wall – or to go, stand or hang wherever you find it best.

About the Designer

Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specialize in residential architecture, commercial interiors, industrial design, photography and art direction. Today, the group regularly collaborates with MENU, helping to drive the evolution of the brand and its product offerings. Norm Architects' name reflects the group's emphasis on the importance of drawing inspiration from norms and traditions within architecture and design – particularly the Scandinavian design principles of timeless aesthetics and natural materials, and the modernist values of restraint and refinement. Guided by these principles, Norm Architects produce design that unites good materials and craftsmanship, while embodying beauty, traditions, history and, most importantly, timeless simplicity, where there is nothing more to add or take away.
