The Peek Floor Lamp is simplistic, humble and somewhat quirky in its form. Designed by Jonas Wagell, as a counterpart to Peek Table Lamp, Jonas wanted to create an object that expressed personality and encouraged intuitive engagement. Made up of only three components, the lamp has a heavy base with a long slender stem and a shade which gracefully peeks over the back of a sofa or armchair. The base comes with a concave feature creating a small storage space for the essential stationary, jewelery and other small items. The tip of the stem, as well as being a design feature, also doubles up as a functional dimmer.

About the Designer

Jonas Wagell is a Swedish architect and designer based in Stockholm. His work has come to be known for simplistic playfulness and clever compact living, with recent collaborations reaching as far as China, Taiwan and North America. The studio's architecture work is mostly known for the prefab house concept, 'Mini House', which has previously been recognized by Wallpaper* magazine naming him one of the 'World's 50 hottest young Architects' in 2008. Today, their work is primarily focused on product design and creative direction for clients around the world.
