Use a soft dry cloth to clean. Do not use any cleaners with chemicals or harsh abrasives. Avoid using water.

The most elegant solution we’ve seen for keeping soap, razors, and bath products of all kinds where you need them. And because it can also be mounted outside the shower, the tray creates the perfect (and hygienic) landing pad for, say, your phone. The new design, available in black or white, comes in two versions: one with marble in the powder-coated aluminum tray, the other with just the tray, complete with drainage holes. Both versions feature the signature Bath Series edging to keep objects from slipping to the floor.

About the Designer
Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specialise in residential architecture, commercial interiors, industrial design, photography and art direction. Today, the group regularly collaborates with MENU, helping to drive the evolution of the brand and its product offerings. Norm Architects’ name reflects the group’s emphasis on the importance of drawing inspiration from norms and traditions within architecture and design – particularly the Scandinavian design principles of timeless aesthetics and natural materials, and the modernist values of restraint and refinement. Guided by these principles, Norm Architects produce design that unites good materials and craftsmanship, while embodying beauty, traditions, history and, most importantly, timeless simplicity, where there is nothing more to add or take away.
